

Securely Handle your Candidate Credentials

Uvery is a blockchain-based verification tool for companies and HR to verify candidate certifications, and Universities to give out securely verifiable certifications.

We offer our service for **Verifiers** like hirers seeking to verify a candidate’s academic credentials,
or **Academic Institutions** to create and deliver Verifiable Certificates on Uvery.

For Verifiers

1. Upload Candidate Certificates on Here

2. Wait until we search for a Match

3. Receive the results directly Here

Verify Now

For Institutions

1. Sign Up as an Institution

2. Enter in the Candidate Details

3. Generate a Verifiable Certificate

4. Send out the Certificates via Email

Sign Up as an Institution

About Uvery

Peer-to-peer Verification

We offer a decentralised cryptographic verification of issued certificates, with no central Database for critical info

Streamlined Process for Hiring

Instead of having to verify each candidate’s credentials via manual cross-referencing, use Uvery

Automate Certificate Generation

Our solution offers much more for universities and academic institutes; start issuing certificates securely and quickly
